

We are pleased to inform you that our company has been appointed as Exclusive Agents of **Messrs. NISHISHIBA ELECTRIC CO LTD** in Greece & Cyprus.

Since its foundation in 1950, Nishishiba Electric Co., Ltd. has provided various power generation, industrial, and marine electrical systems for nearly 70 years, and their products and services have offered safety, security and convenience to customers and society.

Nishishiba Electric is also part of the **Toshiba Group**, one of the biggest houses in Japan.

In addition, Nishishiba's marine electrical systems, which enable safe and efficient navigation, are widely used in container vessels that carry goods around the world, LNG carriers that support energy security, and research vessels designed to carry out research at sea, ferryboats and other types of ships. Based on the technological development capabilities of the Toshiba Group, Nishishiba offers unique and sophisticated skills and capabilities as well as a wealth of expertise accumulated over the years. All these resources allow Nishishiba to provide systems, component products and services that are high in quality, functionality and efficiency. Nishishiba also offers high value-added and environmentally-friendly solutions that best fit electric propulsion ships and other types of ships.

Nishishiba continues to deliver solutions that meet the needs of customers in the social infrastructure sector, and contribute to the realization and development of a safe, secure and sustainable society together with its customers. Nishishiba is committed to leading the world as a provider of land and marine energy solutions.
