

**DSK Co. a reputable workshop  
is now exclusively represented  
in Greece by SEA POWER**

Messrs. DSK are one of the most experienced and reliable workshops in Korea over the last 22 years in **reconditioning of spare parts and T/C service**, as they have been **authorized by major makers such as MAN, HHI, DOOSAN, & STX**

They keep 3 factories in the area of Busan, a steel structure factory in the area of Gimhae and their repair scope consists of the following services:

- Overhaul of all type of Turbochargers
- Reconditioning of M/E engine spare parts
- Hull Repair
- Engine Repair
- Welding Repair

Additionally, since the beginning of 2001 they have been **producing new piston crowns** by means of high technology, which they supply to engine makers such as Hudong, CMD & Doosan.

Their products and services have obtained international certifications by Quality Assurance Organizations, i.e. ISO 9001:2208, GL, ABS, DNV, LR.

You may be assured that we and our principals will offer to your esteemed company the very best in efficiency and we are looking forward to cooperating with you in your future inquiries and needs.
